

September 3, 1997

JEY is here. JEY does come now to meet with you; in fact, JEY has been in the group during this time of meeting and does come to give thanks for each of you. Allow JEY to say that JEY is particularly thankful for the presence of the one who is the youth here at this time. Know as that one is here it is for the purpose of expanding knowledge that is already inherent within his own mental self. It is important that the one who is here as the young would be open to this message which JEY will bring at this time. JEY comes in the will of the Creator and does come to bring that which is Truth. Allow your hearts and your minds to be open.

As you have been discussing those things of importance to you, each of you have expressed your views and your concerns with regard to what has been said. Allow JEY to say this. You have been told many times that you are prepared for what lies ahead. It is in your own mental thinking that you may be led to think you are not fully prepared; but know that as JEY is aware, you have spent the time and the necessary thought in preparing for that which is ahead for you. You have allowed your own consciousness to become fully aware of the unconscious part of your being. . . in other words, that which is the Spirit Within you. And as you have allowed your own mental self, then, to accept the role that the Spirit Within you must play, you are beginning to become a Spiritual being.

We who are in Spirit give thanks for that. It has been a time of Love and much concern that we have spent with you in the years that we have gathered as OMEGA. We have encouraged you. We have taught you. We have been an enforcer as well, for as we speak of being an 'enforcer' it is simply that we have urged you to spend time in meditation, to spend time receiving messages from your own Spirit Within that would strengthen you in your resolve. And so it is that as you have now been able to do what has been necessary for you, we come simply to applaud you. . .again, to reinforce you. . .again, to encourage you. And we would urge you at this time to be open and above board on all now that you know. It is time now to share; it is time now for you to be willing to allow others to know of the knowledge that you have. Not so much that they would know fear, but rather that they would be aware that those things that are happening upon the Earth at this time are happening for a purpose; and that is the cleansing of the Earth.

It is so necessary at this time for them to understand that what mankind has wrought upon the Earth has not been in the will of the Creator. Rather, it has been their own self-determination that has forced them to ascribe to those things that bring harm to the Earth. And so as they have gone their own way and have indeed created more and more of those things that would harm the Earth, it is important for you to be able to point this out to those who would have an interest in listening to what you would need to say.

It is not necessary for you to talk about that which is a 'chaos', but rather to talk about that it is necessary for the Earth to be cleansed, that it is necessary for mankind to change his thinking with regard to the use of the Earth. It is important for YOU as a knowledgeable one, a Spiritual one upon the Earth, to be able to help others to understand what you now understand.

What WE are about at this time has been to encourage you, to teach you. YOU now have that role to play upon the Earth. . .to encourage others to accept that the Earth must undergo a cleansing in order for it to remain a viable, living thing within the Universe. It is sad that mankind has taken it into his hands to create those things that have brought great damage to the Earth; and by that, JEY can only mention a few perhaps. . .but that which has been the military might that has been used has caused great damage to the Earth that cannot be undone short of a cleansing that must take place.

And so as you are aware of these things, JEY would encourage you to begin to share with others your feelings with regard to what is needed upon the Earth. You do not need to mention that which is chaos; but they can fully understand that which would be a cleansing, for as they look about them each day they realize what has been put into the Earth that does indeed pollute the land, pollute the Earth, with regard to the water therein, the food that must grow in the soil of the Earth. They know that there is something wrong. And so you may be able to share with them your feelings on the subject. This will begin a chain of thinking that will lead them to become more fully aware of those things that they read in the printed matter upon the Earth. There is much to be internalized from those things that do present themselves in the form of printed matter. As they begin to look and seek out those things, they become more informed. And by becoming more informed, they become more open to that which is a Spiritual Understanding as well. **Remember this...that the Earth was not made for mankind to destroy.** Rather, **it was made to support mankind as they lived upon the Earth.** And mankind has taken that as license to do whatever mankind has desired to do, which has been harmful to the Earth.

September 3, 1997

It is important that you become now a catalyst that would help others to begin to take the journey that you have taken in order that they may be more fully prepared for that which is to come. You have spoken of that which is a time line for what is to occur. Know that JEY is well aware that you would like a definite date in order that you, yourself, may become fully prepared physically. JEY cannot give you a definite date, but JEY can tell you that when it is said to you that the time **is now short. as we can measure it in the Spirit Realm, it must say that again it is a short period of time upon the Earth. Any short period of time, we would go back to what was said to you. Those months have lengthened to mere than what create a year of your time. In our thinking, those are still months. You have VERY FEW OF THOSE LEFT for your comfort. You MUST be fully prepared as the time draws near.**

JEY does not say this to frighten you, but rather to let you know that all that you have been learning, all the months that you have been reading and listening to the lessons that have been brought to you, you have been preparing for that which is ahead. Be at Peace at this time. Know the joy that you will feel when the time does come, knowing that you are able to meet the challenge. That will bring you joy! You will be able to conclude your journey upon the Earth by serving to fulfill your purpose upon the Earth that you had accepted so many eons ago. JEY gives thanks for this. JEY does come to give praise to our Creator for this, and does thank the one who you call God, for indeed that one who is all powerful and who is the creator of all that is, has indeed provided you with the opportunity now to fulfill a purpose upon the Earth that is so vital and so necessary. Give thanks and praise to that one you call God, for indeed that is the Special and Eternal Spirit.

JEY understands at this time that there is a need for the one who is using voice to receiving a healing, and JEY would at this time pronounce a healing upon that body. Would each of you accept this energy into your bodies as well. Be at Peace now. (A period of silence followed)

JEY comes with a prayer for healing at this time. May not only the one who is serving as voice, but may each of you who are present here receive this energy that is being brought into your circle at this time with the knowledge that it will provide a healing energy. It will provide you healing with regard to motivation and desire; it will provide you with an energy that will propel you into doing that which is necessary for you to do.

May the Eternal Spirit now surround you. . .each of you. . .with a healing energy that will indeed be felt by each of you at this time. And JEY would say that you simply remain in meditation, and JEY will take leave at this time but will remain in your Circle and would ask you to be at Peace and go in Love, and know that JEY is near. AMEN.
