

## November 13, 1997

JEY is here and does come because there has been a conversation that would allow JEY to be with you and give information that may be of assistance to you. JEY comes in the will of the Creator and does come in Love and in the role of one who is Guardian of Spirit of the one whose voice is being used.

It is important that you who live in body upon the Earth have an understanding of the needs of mankind, of the needs of the Spirit-in-Body; and as you have gathered here and have been in a time of conversation, know that JEY is well aware of your thoughts and your needs at this time. Allow JEY to say that when one is speaking of those things that are occurring upon the Earth, there is that which is a missing knowledge within that which is being given to your thoughts. . . in other words what you have learned through that which is available to you, through the media that brings you information from around the Earth on which you live. Know that there are many things that are untold, and those things are of importance to you if you are to understand fully what is occurring upon the Earth. Therefore, it would behoove all who are Spirit-in-Body to pay heed not only to things that are said but to those things that are not said. Allow your Spirit to guide you as you continue to attempt to cope with all the information which comes into your presence. It is important that you be not prejudiced against a particular bit of news or a particular group upon the Earth, but rather that you simply pray that the will of the Creator would be done in a situation, whatever it may be. Those who are involved may indeed be making their decisions based on that which would be input from Spirit.

We who are in the Spirit Realm look upon the Earth and are saddened by all the violence and the wars and misunderstandings that are taking place. We do indeed grieve, for it is not the will of the Creator that mankind should be involved in such. Rather, mankind should be seeking after the good of all...not only one or one group, but the good of all. And so those who are leaders upon the Earth, whoever they may be and whatever country they may be, should be involved in seeking after the GOOD of mankind. . .not after greed, not after power. . .but the good of mankind.

Yet, those of us in the Spirit Realm are well aware that as mankind continues to have the ability to make choices upon the Earth, many will seek after power and many will seek after those things of greed because they have the ability to do so. They have been given this ability through the office which they occupy. JEY would ask each of you who are OMEGA to begin now to be more aware of what is occurring. . .not only through your media through which you receive information, but through that which is gained by you during a time of meditation. . .a better understanding of those things that are occurring upon the Earth.

At this time, JEY too would say that there is now an opening in your own Spirit for you to be able to access information through thought to the extent that you will be better able to make decisions based on what you know through your media upon the Earth. And as you make those decisions, ask for the ability to make decisions that are right and are good not only for you but for all mankind upon the Earth. It is wise then, at this time upon the Earth, for you to let your views be known to those who are in power, for it is through your views that they then can begin to seek the guidance that they need as well.

JEY comes now with this information. As you have been through many, many months of discussing that which is to occur upon the Earth, know that those changes that will occur will affect the leadership in all the nations of the world. You, therefore, need to be one of strength who can send out thoughts that will indeed change the thinking of many upon the Earth. It is important that you be strengthened, as you have been told in the past; and know that as you now have the ability to accept information that is given to you through Spirit, you are well aware that those Earth changes as have been related to you are very near in this which you call 'your' time. We who are in the Spirit Realm now are gathering to help those of you who are known as OMEGA and others throughout the Earth who have dedicated their lives now to that which is a Spiritual Knowledge. So we come now, urging you to simply prepare for that time. It is important that you be alert now to those things that are occurring within the Earth. Seek after that information through whatever source may be available to you. Worry not about the daily little events that may cause you to be unhappy or may cause you to take your attention away from your Spiritual Growth.

It is important that you be willing to forego many of the things that you prefer to think about. But allow your Spirit now to begin to guide you. And as you now have the opportunity to seek for guidance, to seek for healing, to seek for energy, to seek for a better understanding, know that you simply need to ask. And we who are in the Spirit Realm come now to provide for you this which will be a blessing at this time. And this blessing would include a healing for you who are here and who need it, not only physically but Spiritually

at this time. Open your hearts and your minds to receive now what is to be given. JEY comes now in the will of the Creator to provide for you this additional blessing.

May that which is the Love of our Creator for ALL which has been created upon the Earth. . .may that Love be in you and with you in an abundance that would help you to face your daily activities to the extent that you will not feel the loss of energy or the loss of well being. JEY would ask, too, that you be given the ability to provide your physical body with the knowledge, the strength, and the rest that you need to allow it to become strengthened in that which is necessary for it at this time. Look upon your body as a shelter for your Spirit, and treat that body as though it were a shelter that would not be given strength if you did not seek for it. Simply know that in all shelters upon the Earth there is a need for maintenance; there is a need for strengthening. And as the years pass and your Spirit lives within that shelter, there is a continuing need for maintenance of that shelter. Again, JEY would ask that you look upon your body as a shelter for that which is your Spirit. Protect that shelter; allow it to be strengthened. Give it the care it need, for indeed it is necessary for you to have a body of great strength and ability as you live upon the Earth during these times. Be at Peace with this. Know that JEY has come in the will of the Creator and would say to you that you are here because there has been a need for you to be here. JEY is aware that need is now being met. Go now in Peace. Know that you live each day in the will of the Creator if you allow it to be so. It is important that you allow your Spirit to guide your life each day. Go now in Love. AMEN.
