

JEY Message

09/10/2000

JEY is here and does come at this time with information that will add another dimension to your understanding. It is important that you know that JEY does come in the will of the Creator and does come with much Love at this time. As you have been in a time of meeting and discussion about those things which are of importance to you, it is known to those of us who are in Spirit. And so we come to be with you, not only to strengthen your understanding but oftentimes to bring to you knowledge that will be beneficial to you. And so JEY comes at this time with such knowledge.

As you are aware, those of you who have lived as Spirit-in-Body for many years upon the Earth have the opportunity to acquire much understanding with regard to various aspects of life. You continue throughout your journey upon the Earth to allow knowledge and Truth to become a part of your understanding. At this time what JEY wishes to share with you is this. Even as you have been in a time of discussion about that which is dreams, or the dream state which is your sleeping time, you have been aware during your waking hours that you also will receive information through thought or through that which you might call 'dreaming'. In other words, it is no different from that which you receive when you are in a dream state other than that you are aware of what you are receiving at the time when you receive it. Still be aware that often as your Spirit Within you is awakened to be able to give you such information it still may be, and most usually is, that which is of a symbolic state. And so if you then have the ability now to more fully understand the symbolism of those things which come to you when you have not asked for such, or even when you have asked for such, to be given to you, it is important that you treasure the ability not only to receive but also to be able to understand and to interpret.

You have been given the outline to use in order to be able to interpret those symbolisms that come to you during a dream state or during a time that you might simply call 'day dreaming' while you are awake. And so at this time JEY would further enhance your understanding in that regard.

Know that often you will allow your mental self to place a meaning on those symbols that you receive in the sleep state or in a day dreaming state, as you might call it. It is important that you NOT let your own mental interpretation be the sole interpretation that you have of the dreams that you receive. Those do come from the Spirit Within, and through your mental self they are made known to you. As you receive them through your mental self, be aware that the mental interpretation often is not sufficient for you to understand the symbology of what you are receiving. And so JEY would simply ask you to be in prayer before you go into a sleep mode and ask that you be able to understand all that will come to you while you are thus in a time of sleeping. And so it is that you can ask during your waking hours that you be able to understand fully those thoughts that may come to you as symbols during those waking hours.

As you are aware, there have been many things written not only in that which you call your Scriptures about messages that were received by the ancients, but also you are aware that there are many in this lifetime upon the Earth and in lifetimes prior to this who have written about the understanding of those symbols that have been given to many throughout their lifetimes upon the Earth. You are not to simply dwell upon that interpretation but rather upon that which can be received from your Spirit Within. Know that the Spirit Within you can only give you Truth; therefore it is wise that you rely on that which can be given. It is known too that many have come and asked that JEY would interpret dreams that have been given to them as well. Know that JEY does indeed treasure the ability to do so. It is important at this time that JEY would allow each of

you to so express your desire to have help in understanding a dream that you have had. Know that JEY would simply ask you to acknowledge the dream that you received, with the symbolisms that are inherent in that dream, and then allow JEY the time to interpret for you. Is there one who would wish to have such a dream interpreted?

Question: JEY, I would like some help interpreting a dream that has been a recurring dream and that has caused me to be frightened many, many times, and that has to do with my valuables being stolen. I had this dream again night before last and tried to interpret it in conjunction with a job opportunity that I have been exploring. I would appreciate any help that you can give me in this regard at this time.

Allow JEY to say that JEY has heard your thoughts and will attempt to help you to understand more fully that which has come to you as a dream. Know that what JEY has to say to you will be in context with your own Spiritual understanding...your own Spiritual journey; and JEY would ask that you accept it with that understanding. As JEY can see at this point, JEY would tell you that what your Spirit Within you is attempting to do at this time is to relate to you not only a message but also a desire to further move on into a different aspect of life for you. That which you would call your treasures upon the Earth at this time are simply symbolic of the abilities that you have. They will not be taken from you; but what your mental self is fearful of is that if you move from that which you know as an employment area at this point where you have been able to use your those abilities....your mental self is attempting to equate that with being a valuable aspect of your life....in other words, equating the value of your abilities to that of your personal treasures as you would call them. And so the abilities that you have become your treasures. You need have no worry about a thief coming in to steal the valuables that you have; but what you do need to be concerned about is that you will be able not only to use the abilities that you now are using in the context of employment, but you will indeed be able to use those and more in that which will be a field of your choosing. What JEY would ask you to do at this time is that you be in prayer with the idea that not only will you make the step that is necessary for that which is new employment, but you will ask that you be given the ability to know that your employment, wherever it may be, will be protected in order that you may be able to use your God-given and your Spiritual ability along with the educational abilities which you have acquired. You need have no fears; but you need to be alert to opportunities that come to you. Know that as you pray for guidance and pray for understanding, your prayers will be heard. And JEY can give you the assurance that your guardian of Spirit will be working with you even as you allow your Spirit Within to be working with you. Do you have additional questions? (No, thank you.)

Are there other questions?

Yes, JEY, in a dream that I had last night I had been wandering and had come to a house, went into the house to see what was there....especially the antiques that I thought were overpriced....a walnut table...and then going out of the house and being called back in by my Dad but not finding him once I was there. Can you help me in understanding some of this dream and maybe adding more to what I can recall?

Allow JEY to say this. It is known that you have a deep understanding of a Spiritual nature, a deeper understanding of the symbolism of those things which come to you in dreams. You have the ability to simply look for and find the deeper meaning in those things. But allow JEY to say this. Even as you in your dream were entering into that which was a home, you are entering into that which was important to you...that which is a home, that which is security is important to you. You found that many of the things within that secure setting were things that you felt were material things that were indeed given a value much more than you would anticipate placing on material things. You chose to leave this safe area and then again to come back into the safe area looking for more than you had found, and you found that the one person who was so important in your life was not in that building. What JEY would say to you is this. You have the opportunity not only now but in the days to come to create that which will be a safe

environment, a safe opportunity for you. You simply need to place your complete trust in the Creator of all things and know that you will be able then to find that for which you are seeking. Even though you had found a safe place, you were not willing to place upon the material things the values that were there. You seek to place that value upon things other than those things of a material nature. So as you seek now to become more in complete harmony with your life, seek only for those things that have a Spiritual value...not that which will be material value. Even though in a lifetime upon the Earth, many who are Spirit-in-Body seek after the comfort of that which they would call a dwelling, know that often those things cost very, very much from your own life upon Earth; in other words, many people spend many hours in labor simply to maintain those safe areas that they have. If you will place complete trust in the Creator of all things, you will find that you will abide in safety without having to part with that which is a part of the Spiritual value that you have. You are one of great ability, one of great Spiritual understanding. You can combine these two wonderful gifts that you have to lead you far in this lifetime. Simply trust that your faith and your knowledge of those things of Spiritual value will take you far in this lifetime. Are there other questions? (There were none.)

Allow JEY then to complete this communication in this way. There is the opportunity for each of you who are here to be able to more fully understand those things which come to you as dreams or visions. You have been given a road map for such. Make use of this, for indeed it will enable you not only to access information that will help you understand your own symbolic truths that come to you, but you will be able to help others who do not know how to reach in to their Spirit Within to fully understand the Truth of their dreams or of their visions. You are blessed that you have been given such information and that you can indeed become that which will be...and JEY does not wish to use the word 'expert', but you can certainly understand that you will be given the ability to help others where they may not be able to receive the help they need to understand. Be at Peace. Know that JEY does come to each of you in Love and does embrace each of you with that Love and that which is an unconditional Love, for JEY has come to Love you so very much during these many times of communicating with you. And we who are in Spirit will surround the one who is Sarah in our Love and in strengthening her as she now looks forward to a greater understanding of her own Spirit Within. Know that we do remain with you, and we come to comfort you, to give you the strength and the help that we can give you as Spirit. And so we ask that you go in Love and with the understanding that JEY has been here in the will of the Creator. Go now in Peace. Amen.

(This communication followed a study on dreams that we as a group had completed during our meeting, based on information from several sources including John Sanford's book DREAMS...GOD's FORGOTTEN LANGUAGE as well as a message from JEY on the subject received many years ago.)
