

## MESSAGE FROM JEY, 10-3-2004

JEY is here and it is now the will of the Creator that JEY would be in your midst. There is among you who are OMEGA upon the Earth much concern about what is taking place upon the Earth, and you who are here are among those who are concerned about all that is happening. Indeed the will of the Creator has to be done upon the Earth, and you will find there is indeed that which is the will of the Creator which must be completed. You have at this time your own well being upon the Earth and that is to simply be alert to all that is concerning you, and as such you will ask for guidance and protection from those things that would harm you. It is important that you do have at this time a lack of that which is fear. You must know that you can be assured that there is indeed a quickening of Spirit to such an extent that you will be able to deal with all that comes your way.

And so with that said, JEY wishes to speak on this topic at this time. There is, among mankind, that which is a lack of faith, a lack of religious thinking or Spiritual thought. Know that you cannot withhold that which is Truth from that which is the Creator of all Things. Your life does reflect what you believe upon this Earth. And so you have the opportunity to be a beacon of light, or you can switch to the other side and be a beacon for disbelief, or unbelief, for those things that come to be a trouble for mankind. It is not the will of the Creator that you would live this life without affecting someone else who lives upon the Earth. In other words, your life should be lived so that it does have an effect upon another. The other person will be able to see Love within your very body. You have the opportunity to simply be a **beacon of light** and therefore to let your light so shine that it gives out light to another person.

It is known that throughout the life of mankind, much has been written about the belief in a superior human upon the Earth, or a superior being upon the Earth...or one who is simply able to guide the footsteps of mankind. But you must understand that you, as mankind, must lead others by that which you **do, and so you may write volumes about what you believe to be true but what you do with your life is of more importance than what you believe.** Mankind is of the opinion that what is written is often Truth, but that is not true. You will find that there are many beliefs, there are many things written about how you should behave, and many things written with regard to what you should do if you are to gain eternal life! JEY would say this to you...that indeed you do not need to be concerned about eternal life, but what you as a man or woman do here upon this Earth that will affect the life of another.

Once you have returned to the Spirit Realm your life here upon the Earth has passed. You must do what you have to do with regard to other people here upon this Earth. You are not benefiting anyone by withholding information that would help them to have a better life. Again, once you have returned to the Spirit Realm you no longer have the opportunity to deal with mankind who is in body! And so JEY would tell you at this time that you need to do what is necessary at the time you are living upon the Earth.

JEY can see now those things which JEY should have done when JEY was upon the Earth. Know that JEY did live as Spirit in Body and does now regret the opportunities that were lost because JEY did not have the knowledge that you have at this time. And so JEY did indeed waste much time that should have been spent in helping others as they lived upon the Earth. And so with that said, JEY would go on to that which would be more important at this point.

There is at this time upon the Earth that which is a time of technological change that is bringing about much in the way of good for mankind. At the same time there is much that is not useful to mankind, and know that you must be able to separate the two in order to take advantage of that which is the good. It is important for you to be a **bearer of peace and a bearer of love for you to know the difference between those things of peace and love and those things that have nothing to do with peace and love.** And so at this time, JEY would ask you to look at this.

It is important for each one who lives upon the Earth and accepts that which is the Creator's love and accepts that which is mankind which you must serve upon the Earth, and go about this each day forgetting those things that are not useful for mankind or useful to the Creator of us All. You are simply the arms, the legs, the eyes, and the mind of mankind that work for the benefit of all who are Spirit in Body and work for the benefit of the Creator of All Things. What you do does not affect the Creator in any way, but it does affect mankind as they come into your presence and feel the necessity of embodying those things of good and truth that you share with them. The Creator of All Things does indeed have the opportunity to help you as you begin to share; but you must understand as Spirit in Body you do have the responsibility of going to those who are in your reach and allowing them to know that which is the good that can be done by each one upon the Earth.

Let us begin with this. First, allow your love to go out to all others upon the Earth. This does not mean those that you choose to love, but indeed all of mankind must indeed know of your love. And then share with those who you love the Truth that you know. Many will not be able to accept that you hear this through this which is a message from JEY; but you can simply tell that that you must be able to serve the Creator of All Things, and love and share your fellow man. These are easy for you to share, and know as you have the opportunity to share and to tell others of your love for them, they in turn need to know that you accept the love of the Creator for you and for all mankind. These things are easy for you to share; and yet there are some upon the Earth who do not accept this. And so you then reach out to them in a time of prayer and let your prayer and meditation do the work for you. All of mankind can feel the pull of prayer as you pray for them, and the pull of meditation as you keep them in mind as you simply are meditating on those things that are good.

And so as you share with others, as you come to give the love that you know from the Creator, you can bring joy and peace to the lives of other people.

At this time JEY is aware of the great war that is now in progress through the Earth. It is not only one war that you need to be concerned with, but there is war throughout the Earth. There is hatred and violence among people in your own region, and those are the small eruptions of violence that affect more of mankind than war has ever done. You must know that one is equal to another when it comes to bringing hatred, the lack of joy and the lack of peace, to all of mankind.

JEY would tell you that at this time it is known that you are in the midst of a struggle. This should be of no concern to you, for it simply disrupts your life upon the Earth. Instead, send forth a prayer that the person who would win such a struggle upon the Earth at this time would be in the will of the Creator and would indeed fulfill what is required of a ruler of vast countries such as this. Know that man has the opportunity here to help through prayer, and so it shall be. Give of your prayer to the Creator of Us All so that the Creator will know what you seek upon the Earth!

And so at this time, throughout the Earth, when you think of various things which are a disruption of peace and an organization of men against the peace and quiet and joy of a nation wherever it may be, there is a time for prayer and a time for the beginning of a peaceful attitude in those countries. You are simply surrounded by and in the process of treating within your own country those people who would rely on hatred as you have now. There is much in the way of failing to see the Light of the Creator within the being of all mankind upon the Earth. And so you should address these things which are the ruination of peace within your own country. You do not need to have to deal with that every day of your life in order to live upon the Earth; instead what you have should be in a time of peace and joy, not a time of peace and hatred.

JEY is well aware that JEY has come to you recently speaking simply of hatred and violence, but that is what is taking place upon the Earth at this time. There is very little that can be said than that this is what will cause all of mankind to behave in a way to bring more hatred and more violence upon the Earth. Give of you time to peace, and joy, and a time of prayer in order that this will be overcome. You do not have to live in a world that is filled with hatred and violence.

And so this one would beg of you that you as a human being, as a Spirit in Body upon the Earth, would spend your time in looking for those things that are peaceful and will bring joy to the life of mankind.

It is known that JEY has rambled in this time of giving a message to you, but JEY does not wish at this time to have another to come and talk with you without your having your influence upon the Earth to simply try to bring about peace within your country. You have opportunity to serve as an instrument to bringing about peace and good will upon the Earth. Do that in your own area. Do that in the place in which you work. Create those things that are good instead of things that would bring hatred and violence. JEY is aware of your attitude, your visions with regard to the future upon the Earth. Let these be ones of peace and joy rather than hatred and violence. You are having to deal with many people daily in your lives. All are children of the Creator and must indeed return to that Creator of All Things; but it is here upon the Earth that they are living as Spirit in Body and do need all the help that can be given to them at this time. May you be an instrument that will bring to them the joy and love in this life that they live.

JEY has come in peace and love. JEY does indeed wish to bring you joy and love. Go now in peace. Amen.
