

MESSAGE FROM JEY, 4-03-2005

JEY is here and comes in regard to your call, for it is the knowledge of the one who is JEY that there is a special reason for this one to be with you this day.

As you are aware, when those who are in a time of meditation actively ask for help, those us who are in the Spirit Realm do come to give that help to them; and so it is that JEY comes in response to your call, and will attempt to give you the help that you have so sought.

First allow JEY to say that as those who have met here today are aware, much discussion has taken place with regard to those things regarding that which is energy. As you are aware, and as JEY is aware, there is an absolute when it comes to energy for that which is needed upon the Earth with regard to energy to run the appliances and that which is transportation upon the Earth, and to be that which is necessary in the homes. And so it is that JEY will assure you that there will always be energy. The problem is at this time that whether or not all peoples upon the Earth can indeed have an opportunity to have the energy that is needed upon the Earth. As you are aware, the country in which you live is very rich with regard to energy at this time; and although as you are aware, the cost of energy is of extreme importance to you at this time in your country.

There are many countries which do not have the amount of energy that is needed to provide electricity in the homes and to provide all things to all people that is needed is upon the Earth. So, as you speak of energy, think upon those things in regard to the people of the Earth and ask yourself if you would be willing to share the energy that you have with people of the Earth. All people need to have an equal opportunity to share in the energy that is produced upon the Earth.

Allow JEY to further talk with regard to those things that are happening upon the Earth. As you are aware, many times during recent days you have heard of the earthquakes, volcanoes, and other disturbances upon the Earth. Know that those things within the Earth that are now happening will occur at a more rapid pace upon the Earth. So be aware of this and accept the idea that your country may experience much of what has been seen in other countries. You would be alert to the events that happened throughout the world and know that your country can be touched by those things as well. And so with that said, allow JEY to go on to other topics.

JEY has heard your voice with regard to that which is occurring in the life of the one who is instrument at this time. Know that it is an opportunity for that which JEY has often talked to you about, and that is to share the Truth that you know with those who are involved in this. Know that all people do not think alike and do not act alike, and so you are faced with that at this time where you have people of strong will taking advantage of a person with a weak will on the Earth. But allow JEY to say this further. The one who is instrument has been given a power that few have been given upon the Earth, and that is control over the opportunities within another person's life where she can indeed apply her own energy, her own self, her own hand to those things that are needed in another person's life. And so it is at this time for JEY to give this information to help the one who is asking for help in this situation.

As you are aware, there are so many people involved in this situation with differing points of view; and so you, as instrument, must take charge of what is happening here. Know that first of all, you have an opportunity to serve the person for whom you are involved at this time; in other words, that person for whom you have the power to work at this time. So with that in mind, if that person is being used upon the Earth by other people, you should by all means, because of the situation in which you are involved,

take charge of the situation and allow the person who is using her to be gone from her life at this time.

There is no opportunity greater than the one that you have legally obtained upon the Earth because you were asked to do so. And so, with that in mind, know that you have to take the opportunity to protect her from those things and those people who are in the use of her at this time. And so, it is JEY's opinion at this time....and yes, that those of us who are in Spirit, do have opinions that would help people upon the Earth....that you can go to one who has the power in the legal sense to simply order that person out of the life of the one you are taking care of. And so, JEY would ask that you be strong in this matter, that you ask that person in all kindness that she leave the premises of this home. It is her responsibility to find a place to live that would not disrupt the life of another. And so she does not have the opportunity, in this instance to do so. What she must do at this time is to leave the house and no longer come there to stay, and return to the home which she has. There is no other place for her to go at this time. She must return to her home. And so JEY would ask at this time that the one who has advised her to stay where she is now must indeed

change her thinking in this regard. The one who is instrument has the opportunity to help her change her opinion at this time. It must be done. This one who is instrument must not fail in this situation. It must go ahead as has been told in order for things to be resolved as they should be at this time.

Now, JEY simply comes to address all of you with regard to those things of a nature that may be important to each of you at this time. You are aware, of course, that the one who is in your midst as Bill has the opportunity to reach many people upon the Earth in his job. And so we would simply ask you to share the energy that you have with him in order that he may communicate with the people whose lives he touches. It is important that he be able to give the spiritual message to help those people to obtain a better viewpoint of the life that they are living at this time. And so ask the one who is Bill to accept the energy that each of you can send and the one who is JEY can send to him in order to give him the necessary energy that he needs to fulfill his position upon the Earth.

Each of you who are here in this group has a need of some kind that does indeed take energy. At this point in this time, JEY asking you to be at peace and to hold out your hands and accept the energy that JEY can pass on to you. Know that this will help you in the days to come as you continue to do the work that you do at this time. Each of you is involved in some activity that does indeed take energy. JEY is willingly parting with energy at this point to help each of you to do those things that are necessary for you in this lifetime upon the Earth. And so in a time of quiet, JEY will share this energy with you. (A period of quiet followed).

JEY does return at this time and does ask that you accept the energy which JEY has given. Know that we who are in the Spirit Realm are well aware of the need for energy on the Earth Plane, and we do willingly share that which we can share with you. Accept this. Know that it is a gift from the Creator that you have the added energy that you have been given in your life.

JEY would ask each of you to leave this place with a feeling of love that you have for each other, for JEY is aware that indeed you love each other through the energy of simply knowing that you are a group. All those who are in the OMEGA group, wherever they may be, are receiving this energy at this time. They will be aware of added energy in their life. And so as you leave this place, it will be with a prayer and a blessing upon this place in which you have met in order that this blessing may stay with this home and those who live here. Even though you are no longer here, the blessing that you give will linger with it, and will go with you as well. May the days that lie ahead for each of you be days of peace and love, for indeed that is our purpose upon the Earth....to bring you this information and also the peace and love that can go with the information. Go now in love. Know that we hold you very closely in our midst in the Spirit Realm. We ask that you do only those things which are right in the sight of the Creator and be at peace with what you do. Go now in love. AMEN.
